The Directors have a duty to promote the success of the Company, having regard to a range of matters and stakeholders. The Board is responsible for ensuring effective engagement with stakeholders it recognises that decisions taken today will have an impact upon stakeholders, as well as shape the longer-term performance of the business. Appropriate consideration is important in enabling Drax to deliver positive outcomes for the climate, nature and people, and to deliver sustainable value creation.

Examples of how the Board have had regard to the matters set out in Section 172 are set out below. ### ***The likely consequences of any decision in the long term***

Our purpose is to enable a zero carbon, lower cost energy future. With multi-year time horizons for many of our strategic and investment decisions, we recognise that these decisions can have an impact far beyond our business and well into the future. Our decisions support the Group’s long-term strategy: to be a global leader in sustainable biomass pellets; to be a global leader in carbon removals; and to be a UK leader in dispatchable, renewable power.

### ***The need to foster the Company’s business relationships***

#### Investors

We have an ongoing programme of investor relations meetings led by the Drax Group Investor Relations team. As part of that programme, we engage with investors in respect of any upcoming bond issuance. Engagement is typically via a roadshow format, either one-to-one or with small groups of investors so we can discuss our ambitions and understand investor’s concerns and priorities.

#### Suppliers

Our relationships with relevant suppliers are governed by contracts that include compliance with relevant regulatory and legal requirements, anti-bribery and corruption, modern slavery and supplier code of conduct, to which suppliers are expected to adhere. These are regularly reviewed by our Procurement, Legal, and Business Ethics functions. Drax has also signed up to the Prompt Payment Code, and monitors performance to both continue to improve payment performance and maintain positive supplier relationships.

### ***The desirability of the Company maintaining a reputation for high standards of business conduct***

At Drax, we are committed to conducting business ethically, with honesty and integrity. We do not condone any behaviour that could lead to actual or perceived bribery or corruption.
